Prestige Flag files suit in the Southern District against Par Aide for patent infringement. Prestige alleges that Par Aide has infringed on three of its' patents recently acquired in the Laser Link purchase from the fall of 2013.

“As with our case against Standard Golf , we have filed our suit in federal court against Par Aide to protect our intellectual property rights. We believe Par Aide has recklessly infringed on our patents and believe the court will agree”, said Mike Roberts CEO of Prestige.

As previously stated “We will vigorously defend any and all attempts of what we believe to be patent infringement of our intellectual property”, said Roberts.
